Body Wisdom Principles & PLAY PLAY PLAY

Masankho & Diane will be leading a 2 hour morning session for each of the three days. He brings incredible wisdom, depth, humor and grace to leading the group to connect with our ancestors, tell our stories, singing, drumming and dance. Diane brings twenty years of community building work including combining art and activism around the state, region, country and world! Our goal is to bring out the great wisdom that seasoned activists/artists are bringing, and to connect with younger people entering the journey of social change work. How can we sustain our bodyspirits and create strong healthy, balanced families and communities? Through play we'll explore these questions and bring our collective knowing into the circles.
